

GAYK/DOYLE Ram Training Program Waiver of Liability & Checklist

As is true of all construction equipment, operating the Machine involves inherent risk of personal injury, including death, and property damage. Although GAYK endeavors to demonstrate precautions for mitigating these risks, they cannot be eliminated entirely. The sole responsibility for any injuries or damages suffered are accepted by the customer, and the customer agrees that GAYK N.A. LLC, and its representatives, shall be held harmless from any and all liability arising from the use or operation of the equipment.

GAYK has provided the information regarding the following topics: **Operation and Maintenance**

1. Pre-Start-Up Walk Around and Fluid Levels

Checking vital fluids (including engine oil, hydraulic oil and fuel levels) and inspection of the Machine prior to operation.

2. Rotation

Rotating the Machine on its chassis before attempting to raise the mast

3. Electrical Components

Discussion of the operation of the electrical components, including the ignition switch, work lights (if any), and safety light (orange beacon)

4. Ignition & Cycling

Starting the Machine and cycling from idle to operational rpm

5. Controls

Discussion of Machine controls

6. Driving

Discussion of how to drive the Machine, including steering, maneuvering, visibility, and Machine stability

7. Mast Operation

Raising and lowering the mast and centering the leveling "bubble"

8. Hammer Operation

Operating the hammer and turning on the pile driver

9. Shut-Down

Discussion of proper shut-down method

10. Grease Points

Demonstrating the correct grease points on the Machine and hammer and discussing frequency of required greasing

I have read, understand and agree to the matters covered in this document.
